Bratislava, 13 June 2007

Re.: **Reference**

The company SEHRING Bratislava, s .r. o. is active on the Slovak market since 1999.

We have been cooperating with the company Aspena, s.r.o since 2003. It provides us with translations from and into German and English in the areas of civil engineering, marketing, and geodesics of the required quality and within the agreed deadlines.

Even more extensive translations are always realized within express deadlines according to our requirements.

We are very satisfied with the services offered by the company Aspena, s.r.o. – Translation and Interpreting and, based on our own experience, we would recommend its services even to the most demanding of clients.
