Letter of Reference

Aspena, s.r.o. has been doing translations and interpreting in many specializations for us for several years. Most of the translations are from and into English. We are a regular customer of Aspena primarily because we have always received a responsible approach of their people, a very good level of translation, absolute adherence to the delivery dates, speed and flexibility.

Thanks to this cooperation, we will use and recommend the services of Aspena with pleasure to others who seek translating and interpreting services in the future.
