Reference

The Office for Public Procurement, the central state authority in the area of public procurement, cooperated with the company Aspena, s.r.o. (Ltd.) - translation and interpreting - during the Package Meeting with the representatives of DG Internal Market of European Commission on 11 November 2005. Solving remedies and national public procurement regulations in relation to the European law were topics of this proceeding. The company Aspena provided consecutive interpreting from/into French at the Package Meeting.

We were satisfied with interpreting and therefore we can recommend services of the company Aspena, s.r.o. (Ltd.) - translation and interpreting - to other clients as well.

Katarína Némethová

head of Department
of European Affairs
and International Cooperation
